

A GREAT END TIME HARVEST

VISION

Bro. T.W. Barnes

“I saw a huge ball of fire descend from Heaven and burst open upon the earth. From it came valuable treasures and precious jewels. A large crowd of ministers began to quickly pick up these priceless items, and they went forth to use these resources, with the power of God resting upon them. I knew, in the Spirit, that this represented the gifts of the Spirit and instrumental tools made available to the Ministry to further equip them for the work of God. After this occurrence, I then lifted my eyes, and I observed multitudes of people marching in unison like a mighty army over the horizon of the earth. This gathering consisted of every tribe, tongue and nation (i.e. Americans, Chinese, Japanese, Europeans, Russians, Africans, Filipinos, Germans, Spanish, etc.) The season seemed to be a timeframe immediately prior to the rapture of the Church. Together, with established saints, there appeared over 100 million souls, who were one God, Holy Ghost, Jesus-name apostolic believers who had risen up to embrace and declare truth, with great authority, throughout the world. I believe the Lord showed to me the GREAT end time harvest.”

(This vision was first relayed in a conference setting by Brother T.W. Barnes, a minister who was revered as a prophet by many in the U.P.C.I., during a World Missions convention held several years ago in Houston, Texas. He was impressed to share such insight with this particular group because he felt that HOUSTON would play a major role in this specific end time harvest that is destined to impact nationalities worldwide. Details of this vision were reaffirmed in a phone conversation with Brother T.W. Barnes on Sept. 30, 1999.)

In a phone conversation, shortly before his passing in Apr. 2006, Bro. Barnes reiterated that the STX District, including HOUSTON and surrounding areas, would play a major role in end time revival, igniting an impact worldwide.
